

The Cubby News

Publication by the Shire of Cuballing
PO Box 13 Cuballing WA 6311

Monthly publication for Cuballing, Yornaning and Popanyinning

October 2021

The Shire of Cuballing held another very successful Go for 2&5 Cuballing Family Festival on Wednesday 29th September 2021. The rain held off just long enough for the event to

finish, the beautiful weather saw 294 children and their parents enjoy the mornings festivities.

With Covid-19 still looming over our heads, the Shire continued a ticket system. Tickets were free but essential to enter the event. If ever there was a Covid-19 outbreak that was traced back to this event the Shire would be able to track down every single attendee. Ticketing also helps with grant funding with the Shire of Cuballing are able to give accurate information when applying to Healthways.

This year we saw a range of rides to cater from 2 to 13 years of age. Old Mac's Petting Zoo is always a hit and Chris has been attending this event from the start 5 years ago. Local Giri made the balloon animals and Mary completed the face painting. There was an obstacle course, bouncy castles and merry go round but the morning's favourite was the bucking bulls! Lots of fun was had by all!

The Shire would like to thank major sponsor Healthways and Go for 2&5 and the team from the Cuballing Roadhouse.

The Shire would love to receive feedback and ideas or volunteers for next years event. Contact Michelle at cdo@cuballing.wa.gov or on 08 9883 6031

FIRE NOTICES

Extension of Restricted Burning Period

It is hereby advised that in accordance with Section 18(5)(a)(i) of the Bush Fires Act (1954) the commencement of the Restricted Burning Period for the Shire of Cuballing has been extended from 1st October 2021 to now commence on Thursday 14th October 2021.

For further information please contact the Shire of Cuballing or your local Fire Control Officer

FIREBREAK REQUIREMENTS

TOWNSITES AND RURAL RESIDENTIAL LAND

All town lots under 2,024m² (1/2 acre) in area and all fuel depots within the Shire are required to be cleared of all debris and flammable material to a height not more than 50mm.

All lots or combination of lots that comprise of one holding and having an area of 2,024m² (1/2 acre) or greater shall be either clear of all inflammable material or have a firebreak 2.5 metres wide free of all inflammable material provided inside and along all external boundaries.

RURAL LANDS

Firebreak not less than 2.5 metres wide must be established along, inside and within 20 metres of the external boundary of each property (i.e. cleared/part cleared or uncleared land) and where the boundary is adjacent to or adjoins a used gazetted road.

In the interest of protection from soil erosion, firebreaks may be established on the land contours but only with prior approval of the Council or its duly authorised officer.

An area 4 metres wide cleared of all flammable material shall be established immediately around the perimeter of all homesteads, buildings, haystacks and fuel storage areas.

**ALL PROPERTIES WILL BE INSPECTED FROM
1 NOVEMBER 2021 TO ENSURE THEY COMPLY WITH COUNCIL'S FIREBREAK
REQUIREMENTS**

POSITION VACANT ADMINISTRATION TRAINEE

CUBALLING

The Shire of Cuballing is looking for an enthusiastic, energetic and self-motivated person to take on the role of Administration Trainee as part of our small office.

The successful applicant will work under the direction of the Deputy CEO and complete both on the job training and attending studies off site. Duties will include customer service, exposure to accounting and record keeping duties and assisting in delivering community events while completing Certificate III in Business.

The position is offered as a 12 month contract under the conditions of the Local Government Industry Award 2010.

Further information is available on www.cuballing.wa.gov.au or by contacting Nicole at enquiries@cuballing.wa.gov.au or phone 08 9883 6031.

For a confidential discussion about the position, please call Deputy CEO Bronwyn Dew at the Shire Office or 0498 836 868. All enquiries and applications will be treated with utmost confidentiality.

Applications close with the undersigned by 4pm Thursday 4th November 2021.

Expected commencement date 29th November 2021.

Shire of Cuballing All Purpose Access.

As part of the 2021/22 budget the Shire of Cuballing allocated \$62,833 to construct an all purpose access to the administration building.

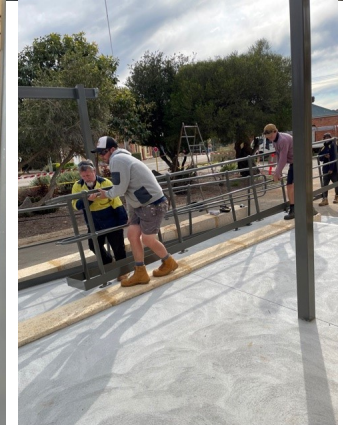

The works included the construction of an all purpose ramp that leads to automatic entry doors. The old front doors were removed and the space bricked up and rendered. A covered area was installed over the new entry to protect visitors from the elements when entering the Shire office.

The Shire was successful in obtaining a grant to fund the new access from the Department of Infrastructure, Transport, Regional Development and Communications under the Local Roads and Community Infrastructure Program.

The new access was constructed by Cuballing Building Company using business's from the local area including, Ike's Glass, BKS Electrical and A & A Corasaniti.

The Shire staff would like to thank the contractors who all worked tirelessly to finish the project with a minimum of disruption to Shire operations, with a huge thanks to David Shanks for co-ordinating the construction with military precision.

Now the all purpose access is complete, the second stage of the project is in full swing. This involves a refurbishment of the reception area, front gardens and parking areas.

Adrian Kowald – (nominating for council)

Contact Info: 0408 953337 Email: adrianpoppo@outlook.com.au

Coming from a Great Southern farming family, and with 45 years work experience in government enterprise, private business, and community service, I bring a unique blend of skills to the local government. Using our limited dollars wisely is key to building a resilient community and improving our essential infrastructure.

Community Service includes:

- 25 years service with Aust. Army Reserve, attaining the rank of Warrant Office.
- Working on committees of sporting and recreational clubs.
- Currently an active member of Popanyinning Progress Association.

If elected my focus would be:

- Accountability & scrutiny financial decisions.
- Ensure the districts' core business of farming is supported.
- Support development of new business & tourism opportunities
- Consult widely with ALL community members on what they would like to see from their council.

My career background is project management on large government infrastructures, and multimillion dollar civil construction projects. I enjoy working with a variety of skilled and interested people to achieve common goals.

My first priority if elected:

To extensively seek feedback from residents of Cuballing & Popanyinning on what they want to see their Local Government doing to improve their community. Then work towards developing action plans and sensible policies that achieve this.

Council will face many challenges over the next four years and I would welcome the opportunity to bring thoughtful, well informed and inclusive decision making to the table.

Written & Authorised by Adrian Kowald, 1 Hotham St. Popanyinning WA 6309.

Landcare matters

Hotham-Williams sub-catchment update

PHCC Working Together
Peel-Harvey Catchment Council

Edition 58
October 2021

NRM is the management of natural resources such as land, water, soils, plants and animals. It brings together land use planning, water management, biodiversity conservation and sustainability of industries such as agriculture, mining, tourism, fisheries and forestry.

Welcome Kristy

We are delighted to welcome Kristy Gregory to the PHCC team. Kristy has been appointed to our newly created role as Coordinator, River Restoration for the Hotham-Williams subcatchment.

Kristy will be coordinating planning for river restoration works at up to 8 sites across the Hotham and Williams Rivers with implementation of works at 4 sites by June 2025.

Kristy will be based in our Boddington office mostly, while also providing support across our catchment for monitoring and

evaluation of other projects.

Welcome aboard Kristy! This position is funded through partnerships with both South32 Worsley Alumina and Newmont Australia (Boddington).

CEG Updates...

2021/2022 Community Environment Grant Applications have now been presented to the assessment panel to be reviewed on their merits against criteria to meet Australian Government outcomes, for access to a limited pool of funds.

There were a total of 41 applications across the Peel-Harvey Catchment with 25 of these being for projects within the Hotham-Williams Sub-catchment.

Applicants will soon be notified if their project was successful.

The PHCC team have also been out and about visiting CEG projects from 2020/2021.

Cotton Bush Control Worth The Effort

Narrow-leaved Cotton Bush is a Declared Weed and has a significant impact of farm production and animal health.

This time of the year pods are forming on this small shrub, with the potential for thousands of air-borne seeds moving onto surrounding land.

Finding Cotton Bush infestation now and scheduling control (physical or chemical) will reduce the chance of this weed establishing on your property.

Cotton bush invades pastures and can form dense thickets many hectares in size if left uncontrolled. It is toxic to livestock and although rarely eaten can be fatal if it is.

Areas with mature infestations of cotton bush can be permanently unavailable for agriculture, costly to remove and become a reservoir

of wind-dispersed seed that can invade nearby pastures.

Early identification and control is essential. For more information about control methods see <https://www.agric.wa.gov.au/declared-plants/narrow-leaf-cotton-bush-declared-pest>

Narrow leaf cotton bush
(*Gomphocarpus fruticosus*)

Potential Risk to Carnaby's

Mouse numbers are forecast to reach plague proportions in some parts of WA.

As you may have seen on the ABC recently to minimise mouse impacts some landholders are turning to broadscale aerial spread poisoned grain (treated with a first generation rodenticide with zinc phosphide).

Although we've been advised the risks of secondary poisoning are low, direct ingestion of treated grain could cause ill effects for birds. Carnaby's are known to feed on canola both before and after harvesting, feeding on the ground, leaving them open to risk of direct ingestion.

Please be vigilant and if you do see any sick or dead Carnaby's report to Perth Zoo (9474 0444) or BirdLife (9383 7749) ASAP.

Photo: Keith Lightbody

Landcare matters

Hotham-Williams sub-catchment update

Hotham River Highest July Streamflow in 20 years

Wow, that was a wet winter! In fact, this July was the wettest month since 2016, with rainfall 7% above the 1961-1990 July average for Western Australia as a whole, according to the Bureau of Meteorology.

A rainfall and streamflow summary issued by the Department of Water and Environmental Regulation stated that the Hotham River had its highest recorded streamflow for July in over 20 years.

Photos of proposed project sites from the Hotham-Williams River Action Plan were sent to

PHCC by members of the community, showing just how far the Rivers expanded during the peak rainfall episodes.

The photos were a great illustration of how our rivers would have once naturally moved and changed shape and location from season to season before our modern landscape and infrastructure tended to encourage them to follow a set 'path'.

Red-Tailed Phascogale Nest Boxes

Recently PHCC team members conducted monitoring of 8 red-tailed phascogale nest boxes, these are located in Dryandra Woodland, East Yornaning Reserve and on private property.

Although we didn't see any red-tailed phascogales, we did see a small amount of nesting material which has given us hope for next year.

Excitingly we have also been receiving several reports from landholders who have seen both red-tailed and brush-tailed phascogales on their properties.

Thank you to our dedicated volunteers Victoria and Sierra for their help!

Volunteers Sierra and Victoria

If you are interested in becoming a PHCC volunteer please contact Nicole Ramsay in our Boddington office on 6369 8801. You can also visit our website: <https://peel-harvey.org.au/get-involved/volunteer-with-us/>

COVID-19 We value the health and safety of our whole community and PHCC is now accepting visitors on an appointment basis only. Please contact us to make a booking via phone on 6369 8801 or 0455 166 780 or via email.

Coming Up...

Up coming Events:

- Boddington District High School Numbat Incursion – Date to be confirmed
- Numbat Dig ID Workshop – Friday 12th November
Details to follow
- Wetlands Weekender Festival 8th to 10th October
<https://peel-harvey.org.au/wetlands-weekender/>
- Lake McLarty Open Day – Saturday 16th October
<https://peel-harvey.org.au/events/lake-mclarty-open-day/>

What's happening:

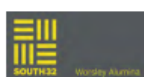

- Bridal Creeper Spraying within the Boddington Shire (State NRM Grant)
- Black Cockatoo breeding site field work with Birdlife WA (if you think you have Black Cockatoos nesting on your property please let us know)

Do you need assistance with feral animal control?
Contact us regarding:

- 1080 training and assistance with baits
- Loaning cage traps

Do you have an NRM event or information you would like us to promote?

Please contact us on 6369 8801 or 0455 166 780

These projects are supported by the Peel-Harvey Catchment Council through funding from the Australian Government's National Landcare Program and Environment Restoration Fund, Newmont Boddington, South32 Worsley Alumina and the Shires of Boddington, Cuballing, Wandering and Williams

GOLF NOTES – SEPTEMBER 2021

Another month has been and gone and that means it's time for a look back at all the goings on at the Cuballing Golf Club for the month of September.

We kicked off the month with our 5th and Final Qualifying Round sponsored by Matthew Birrell and the team at Country Paint Supplies. 24 of Cuballing's finest golfers turned out in a last-ditch effort to try and improve their qualifying position ahead of the Championships. For some however, it was just a case of get a score on the board to even be eligible to play Championships... Morty! Our Nett Winner was Bevan George with an 84-76 Nett. Runner Up on a count back was Rob Harris with an 85-77 Nett and 3rd

was our Captain Lindsay George with 87-77 Nett. We also had a good mix of novelties across the course to keep those who weren't having a great day on their toes with the chance to win a golf ball sucking us all in. Special mention to Mike Clark who sunk both Longest Putts on the day.

On the 9th we hosted the annual FFF Golf Day, and you couldn't have asked for better... no sorry, WORSE weather for golf. The rain was persistent throughout the day and at times I'm sure I saw someone in a motorboat. Never the less, 68 players from all around turned up for 18 holes of punishment. Everyone from Ag Reps to Ex Footy Stars, Farmers to Apparel Reps & Ex Pollies to Cuby Golfers made up the field. Despite the rain everyone had a great day. Well Done to Howie & Woz for winning the day after a lucky spin on the wheel meant they had the best Nett score.

September also saw the return of our Mixed Championships for the first time since 2010! It's great to see this event up and running again and hopefully it won't be going anywhere anytime soon. Congratulations to this year's Champions Bevan & Jodie George who took out the title with 104 off the stick. We also held the usual Stableford on this day for those of us who didn't have a partner for the mixed, it was also the last chance for us to iron our any issues in our game ahead of the Club Championships the following weekend. Congrats to Stu Budd who was the winner with 32 points.

That one day in September Finally rolled around... no, I'm not talking about the AFL Grand Final, I'm taking about Cuballing Golf Club, Club Championships. This was our biggest field in years with Grades being filled right through from A to G. In the A Grade Rob Harris took on Bevan George and came out victorious being 2/1. Congratulations Rob. In B Grade, Wayne McLeish and Anthony Mort went toe to toe with Wayne coming out victorious 4/3. C Grade saw Kel Old take on Anthony Howe. Somehow Kel was able to tune Howie's dribble out and come home victorious 4/3. In D Grade, Kade Maley and Graeme Dent fought for the title with Kade coming out on top 4/3. In the battle for E Grade Glory Dan Christensen and David Shanks took it all the way to the 19th with DC being the victor. F Grade... well, after Bevan Watson being a No Show in the morning (email issues 😞) Simon Howe and Mark Dartnell cruised around quietly with Simon getting the choccies 3/2. Finally, G Grade saw Ash Wilkins and Logan Hayes do it the hard way and go all the way to the 19th with Logan coming out victorious in front of the peanut gallery that was following.

Finally, this season saw a return to the Grand Final Ambrose day, we had a good field turn out to play 18 Holes of hit the best shot, which saw Bevan & Jodie George come home victorious. Following, we all gathered in the club house to watch the History making event... an AFL Grand Final being playing in WA.

EST. 1958

An open letter to the Cuballing community

It has been an honour and a privilege to serve as a Councillor on the Shire of Cuballing for the last two years. It has been challenging to represent such a diverse community, but I have enjoyed every minute of it. Having the chance to work with people, both elected to, and employed by, council has been an exciting experience. Meeting the challenges of serving on such a small council, within the demanding parameters of legislative requirements, whilst balancing a budget that will never meet all of the community demands, places huge responsibilities onto the shoulders of the staff who prepare the information required to make these decisions, Councillors who have to prioritise the projects and the staff who make them happen.

My greatest regret is that I am unable to complete my term, due to the medical diagnosis of pancreatic cancer. As my treatment is scheduled to continue for at least 6 months, remaining as an elected member became an impossible task. I need to concentrate all of my energies and positivity into my recovery. This condition was certainly unexpected and has put many future plans on hold.

The cancer is localised in the pancreas, and there has been no metastatisation into other areas of my body. I have chemotherapy infusions every fortnight, at Sir Charles Gairdner Hospital, and am spending most of my time being cared for, by friends, in Shenton Park.

Barry is caring for the farm, and I get to spend a few days per chemo round, chilling out under the huge sky of Popanyinning – what a wonderful place for mindful healing. Without his love and support, I would not be able to throw myself wholeheartedly into the healing process.

Please accept our thanks for the kinds words and actions given to us by council and the community.

I wish all of the candidates the very best for the upcoming election and look forward to the being present to swear in the new council on Wednesday 20th October.

Kind regards

Cr Deb Hopper JP

14 September 2021

THE SANTALUM TRIO"

Growing in our regional bushlands are three santalum species; the sweet quandong, [santalum acuminatum] Australian sandalwood [santalum spicatum] and the bitter quandong [santalum murrayanum].

All three are unique plants as they are semi parasitic, their root systems "tap into" the root systems of a range of other plants the favoured ones being acacias which are nitrogen fixers. Around the Great Southern Acacia acuminata [Raspberry jam tree] is a common host tree.

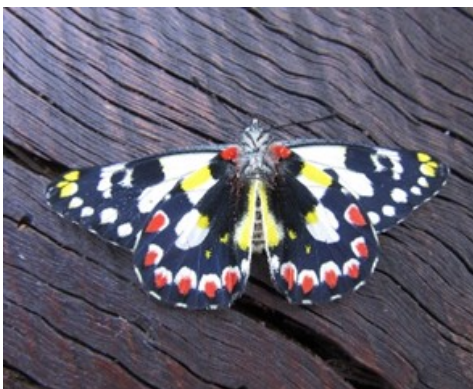

The quandongs are generally standalone after 4-5 years; whereas the sandalwood favours a longer term relationship with its host. All of the three generally set fruit from an age of approximately 4-5 years. The quandong and sandalwood nuts are a favoured food of the emu and the woylie; which has an unusual habit of burying quandong nuts squirrel like I guess, as a snack for later. A common pollinator of the santalum tree is the Australian woodwhite butterfly [Delias aganippe]

The sweet quandong fruit is edible, high in vitamin C, making great jam, chutney and quandong pie of course. The sandalwood nuts are edible too and are marketed as a snack food.

The bitter quandong; is just that, bitter! But has its role in the bush being eaten by emus, woylies and bush rats.

All three make a great garden plant too, they host off other garden plants without affecting them.

Peter Denton. 2021.
