SHIRE OF CUBALLING
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ended 31 December 2017

Note 1: Significant Accounting Policies

(a) Basis of Accounting

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected

Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

(c) Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

(d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(e) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are

(f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

(g) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined

(j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Asset	Years
Buildings	30 to 50 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Sealed roads and streets	
formation	not depreciated
pavement	50 years
seal	
bituminous seals	20 years
asphalt surfaces	25 years
Gravel Roads	
formation	not depreciated
pavement	50 years
gravel sheet	12 years
Formed roads	
formation	not depreciated
pavement	50 years
Footpaths - slab	20 years

(k) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(l) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.

(ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

(m) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

(n) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

(o) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for

Comments - Rating Information

All land except exempt land in the Shire of Cuballing is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2017/18 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

Comment

Permanent difference due to an incorrectly paid account that was reimbursed for \$2,659.80 and Regional Resource Sharing funds not budgeted for of \$2,962.59. Profit on asset disposal has gone here for a DFES Trade that will have no net impact.

Computer upgrades were budgeted for are to be expended in February. Council Election costs will be permanently under budget (no election run) as advised previously.

Law, Order & Public Safety

An advance was paid in June for the Quarter 1 payment of the Emergency Services Levy Grant (\$6,875).

Vehicle maintenance and insurance costs are still under budget.

Community Amenities

Local Planning Strategy has incurred minimal expenditure recorded against it, though it was budgeted to have spent some.

Tip maintenance costs are slightly under budget.

Recreation and Culture

Recreation complex income is slightly under budget.

Halls, Parks and Oval maintenance are all over budget.

Transport

Permanent difference due to changes in Main Roads Direct Grant from budgeted \$99,902 to \$57,535. Permanent difference as FAGS Road Grant will be under budget.

Road maintenance is over budget due to delays in the Capital Works program. Road depreciation is higher than budgeted.

Economic Services

Building expenses less than budgeted. Tourism expenses less than budgeted as Event signs have not yet gone ahead.

Standpipe expenses slightly under budget, with expenses expected in coming months.

Other Property and Services

Private Works income is under budget, balanced by expenditure also coming in under budget for both Building and Works.

Workers compensation claims are also higher than budgeted, balanced by reimbursement by LGIS.

Capital Roads Program has been delayed due to road clearing permit difficulties. Work has commenced and is expected to be completed on time.

Permanent difference on roller changeover as it came in under budget.

Detailed breakdown of all variances provided in Note 2 of the Statement of Financial Activity.

SHIRE OF CUBALLING
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ended 31 January 2018

Note 1: Significant Accounting Policies

(a) Basis of Accounting

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected

Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

(c) Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

(d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(e) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are

(f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

(g) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined

(j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

(k) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(l) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.

(ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

(m) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

(n) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

(o) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for

Comments - Rating Information

All land except exempt land in the Shire of Cuballing is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2017/18 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

Summary

Retrospective development approval is recommended for a piggery along with associated expansion of the piggery at Lot 9081 (No. 290) Gaths Road, Commodine.

Background

1. The application

The applicant seeks retrospective development approval for a piggery which was established 20 years ago. Additionally, the applicant seeks development approval to expand the piggery through eight additional strawbased eco shelters, relocating the waste area and mortalities (shallow burial) area and increasing the number of pigs from 5,000 to 7,000.

Details submitted by the applicant are set out in Attachment 9.2.1A. These details include information relating to the property, existing infrastructure, proposed piggery operation, piggery management, environmental impact assessment, community amenity and various plans. The information provided by the applicant provides background information which is generally not repeated in this report.

2. Application site

The site's location is outlined in Attachment 9.2.1B which is approximately 12km east of Yornaning.

The Furphy & Co farm consists of multiple titles which have a combined area of around 1100 hectares. The piggery facilities are located on Lot 9081 in the central southern portion of the farm highlighted in red on Attachment 9.2.1B.

Further details relating to the application site are set out in Attachment 9.2.1A

3. Public consultation

The Shire administration sent letters to 15 stakeholders including adjoining/nearby landowners and relevant State Government authorities seeking comment on the application for 42 days. Additionally, the Shire invited comments through a notice in the Narrogin Observer, on a notice on the property entrance and a notice on the notice board at the Shire office.

The Shire received 2 submissions which are outlined in Attachment 9.2.1C. The submissions raise no objection but provide advice on various matters and suggest associated development conditions.

The Department of Water and Environmental Regulation (DWER) in part advise that this piggery meets the definition of prescribed premises Category 2 – Intensive Piggery as per Schedule 1 of the Environmental Protection Regulations 1987. As such the Environmental Protection Act 1986 requires a works approval and a licence (for operation) to be obtained for the premises. The applicant has been advised by DWER that a works approval and licence are necessary for the existing and proposed intensive piggery premises.

4. Planning and environmental context

There are a range of planning and environmental legislation, strategies, policies and guidelines relevant to the application. Some of these are outlined below with others listed under Statutory Environment.

4A) Shire of Cuballing Town Planning Scheme No. 2

The site is zoned 'General Agriculture' in the *Shire of Cuballing Town Planning Scheme No. 2* (TPS2).

The piggery use is defined in TPS2 as 'animal husbandryintensive' which means 'premises used for keeping, rearing or fattening of pigs, poultry (for either egg or meat production), rabbits (for either meat or fur production) and other livestock feedlots'.

Animal husbandryintensive is an 'A' use in the General Agriculture Zone. This means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving special notice (seeking comment) in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015*.

The aims of TPS2 (clause 1.6) include:

- to promote the sustainable management of natural resources including energy, water, land, minerals and basic raw materials by preventing land degradation and integrating land and catchment management with land use planning; and
- to encourage economic growth in rural areas by facilitating the more intensive and diversified use of rural land in appropriate areas for high value products which are compatible with surrounding farm practices and encouraging processing and value adding industries to be located within the Shire.

Clause 4.2(b) sets out objectives for the General Agriculture Zone. The objectives include:

- to encourage intensive agriculture where soil conditions and location are appropriate and it can be demonstrated that offsite impacts (if any) will not adversely affect existing agricultural activities; and
- to ensure that natural drainage patterns/catchments throughout the Shire are recognised in land management practices.

Clause 5.11.2 states 'Council will support more intensive forms of agricultural production in the General Agriculture zone subject to:

- identification of soil types, availability and adequacy of water supply, and any areas of salt affected land and/or land degradation;

- evidence from suitably qualified consultants and/or the Department of Agriculture on the suitability of the proposed lots and lot size for the intended land use;
- evidence of suitable land care management issues addressing retention of remnant vegetation, revegetation areas, land degradation and salinity management;
- evidence that the proposed activity is compatible with broadacre agriculture or that adverse impacts can be contained within the site; and
- such other matters as may be determined by Council.'

The Development Table – General, which sets out standards for setbacks and related matters, outlines that setbacks for piggeries are to be determined by Council.

Attachment 9.2.1D sets out an extract from the *Planning and Development (Local Planning Schemes) Regulations 2015* relating to matters to be considered by the local government in determining Development Application and options in determining applications. The Regulations include deemed provisions for local planning schemes which replace relevant clauses in local planning schemes in Western Australia including TPS2.

4B) Shire of Cuballing Local Planning Strategy

The Local Planning Strategy seeks to protect prime agricultural land, support agriculture valueadding industries, broaden the local economy, reduce nutrient export into waterways and promote best practice land management. One of the aims for rural land is 'To encourage intensive agricultural activities where it can be demonstrated that there are no adverse offsite impacts to broadscale agriculture' (page 18).

4C) Guidance Statement No. 3 Separation Distances between Industrial and Sensitive Land Uses

This Environmental Protection Authority document provides generic buffer (separation) distances for a range of activities. In relation to piggeries, it sets out a buffer of 2000 metres for piggeryintensive (premises on which pigs are fed, watered and housed in indoor pens) for piggeries with 50 – 500 pigs. For piggery – extensive, premises on which pigs are fed, watered and housed in outside paddocks or enclosures, the buffer is 1000 metres.

4D) National Environmental Guidelines for Piggeries

This document completed by Australian Pork Limited is an industry prepared guideline that provides a nationally agreed approach to management of pig production in Australia to achieve environmental goals. This document considers the separation distances from areas of byproduct use to relevant receptors and features. The following categories describe the method employed for the spent bedding created at a deep litter piggery, with the specified distances for each category listed.

Category 1

- Spent bedding is spread immediately (i.e. is not stockpiled/composted) and remains on the soil surface for more than 24 hours (i.e. is not immediately ploughed in).

Category 2

- Spent bedding is stockpiled before spreading.

Category 3

- Spent bedding/solids are composted.
- Application of effluent/spent bedding/solids in combination with immediate incorporation of material into the soil.

Where more than one category is used, the more (or most) stringent category controls apply.

The following is from Table A.10 Separation distances surrounding byproduct reuse areas:

Feature/Category	1	2	3
Town	1,000	750	300
Rural Residential	600	400	150
Rural Dwelling	300	200	100
Public Road carrying > 50 vehicles per day	50	25	
Public Road carrying < 50 vehicles per day	25	15	
Property boundary	25	20	

4E) Bush Fire Prone Area

Portions of the application site and the piggery are classified as a Bush Fire Prone Area as set out at <https://maps.slip.wa.gov.au/landgate/bushfireprone/>.

Comment

A) Overview

It is recommended that Council conditionally approve the retrospective Development Application for a piggery (animal husbandryintensive) along with the associated expansion of the piggery. This follows assessment against TPS2, the Local Planning Strategy, other relevant planning and environmental documents, information provided by the applicant, considering the views of the submitters and site characteristics.

Conditional approval is recommended for reasons including:

- it formalises a long established use which has operated for 20 years without creating concerns to neighbours;
- the application is overall consistent with the planning framework including that there are generally extensive buffers to offsite dwellings and there are no adverse offsite impacts to broadscale agriculture;
- the area will remain rural for the longterm (there are no proposals for the area to be changed to rural residential or rural smallholding);
- no clearing of native vegetation is proposed;
- there are limited traffic impact or landscape impact implications;
- it supports a local business to grow, supports diversifying the local economy and it promotes employment opportunities;
- development (planning) conditions along with Health Local Laws registration, industry certification and possible DWER works approval and licencing can assist to minimise impacts and enhance amenity;
- no objections were received on the Development Application. Accordingly, it can only be assumed that adjoining/surrounding landowners and other stakeholders have no objections; and
- there are not considered to be strong planning grounds to refuse the Development Application.

While noting the above, there are various issues associated with the piggery which should be considered by the Council in determining the Development Application including matters outlined in Attachment 9.2.1D.

B) Key issues

The key issues with the application are summarised below:

- setbacks/buffers – including the landowner continuing to own buffer land and possibly securing remaining buffer land;
- managing waste and controlling nutrient runoff – the existing and proposed expanded piggery is close to a waterway. There is a need to obtain additional information from the applicant to ensure that offsite impacts are prevented or minimised from the operation including vehicle washdown. This may require interceptor drains, earth bunds and settling pit/s;
- ongoing management the responsibility for appropriate ongoing management rests with the operator. This includes ensuring that the piggery does not create inappropriate impacts such as odour, noise and dust to adjoining/nearby properties. Additionally, that the operator appropriately addresses matters such as biosecurity and mortalities management. It is suggested that these matters can be appropriated addressed through quality assurance undertaken by the operator and be enforced through the *Shire of Cuballing Health Local Laws 2007*. There may be an additional requirement for the applicant to gain a Works Approval and licence from the DWER; and
- fire management including reducing fire risk.

C) Buffers/setbacks

Piggeries by their nature of operations have the potential to create emissions including odour, noise and dust. Better planning practice requires a suitable buffer between piggeries and 'sensitive' uses such as dwellings. Accordingly, piggeries should be sited and operated to prevent unreasonable interference with the health, welfare, convenience, comfort or the amenity of neighbours.

It is noted that the established piggery is generally well setback from property boundaries and dwellings not forming part of the applicant's farm. The nearest neighbour's residence is approximately 1,800 metres to the southeast.

Some of the adjoining and nearby lots, not owned by the applicant/operator, do not currently contain a dwelling. This includes adjoining Lot 28 Walsh Road. There is a statutory right for a landowner to apply and gain approval for a dwelling on these lots.

Part of the piggery's buffer extends into land not owned by the applicant/operator. To manage future land use compatibility, the applicant/operator may wish to pursue securing necessary land so the buffer is owned by the piggery operator. Importantly, it is suggested that the piggery should not adversely affect the ability of adjoining/nearby landowners to construct a dwelling in a location which complies with TPS2 setback requirements.

Odour, noise and dust are unlikely to have a detrimental impact on existing offsite dwellings provided the piggery is managed appropriately in accordance with the relevant guidelines. The operator's extensive track record, where no concerns have been raised with the Shire, provides greater assurances that odour, noise and dust can be effectively managed.

D) Registration and licencing

Should the Council grant development approval, there is a separate requirement for the landowner/operator to make an Application for Registration of Premises for Offensive Trade to the Shire. This is to address the *Health Act 1911* and the *Shire of Cuballing Health Local*

Laws 2007. Amongst matters, the Health Local Laws requires the operator to prevent nuisances impacting human health and to ensure there is appropriate land management.

Given the proposed scale of the piggery, DWER have advised that there is a requirement for the operator to obtain a Works Approval, licence or registration from the DWER. DWER have separately advised the applicant of this requirement. A DWER Works Approval and DWER licence, will address technical and operational matters in greater detail.

E) Quality assurance

It is understood there has been a change in quality assurance requirements for the major buyers of pork produce and proof of local government approval is now required.

The Australian Pork Industry Quality Assurance Program (APIQ) provides the framework and standards by which Australian pig producers can demonstrate they are responsible farmers who care for their animals and the environment by following safe and sustainable practices contained in their publications. It is expected that the operator may need to separately prepare an Environmental Management Plan in accordance with the Australian Pork Limited *National Environmental Guidelines for Piggeries* (2nd edition revised 2010). These guidelines outline best practice management for Australian piggeries.

APIQ accreditation provides an additional level of compliance to ensure that the piggery is managed and operated at an industry standard. Accreditation reduces the risk of piggeries creating negative impacts on the amenity of adjoining areas.

Strategic Implications

There are a number of industries within the Shire of Cuballing which are all strongly based around the agricultural industry. The main employers in the Shire of Cuballing are Birds Silos and Shelters, McDougall Weldments, as well as the more intensive agricultural enterprises, cattle feedlots and piggeries.

Statutory Environment

There is a range of legislation and regulations relevant to the application including:

- *Planning and Development Act 2005* and *TPS2*;
- *Planning and Development (Local Planning Schemes) Regulations 2015*;
- *Environmental Protection Act 1986* and the *Environmental Protection Regulations 1987*;
- *Health (Miscellaneous Provisions) Act 1911* a piggery is defined as an offensive trade and must be registered with the local government on an annual basis;
- *Shire of Cuballing Health Local Laws 2007*;
- *Soil and Land Conservation Act 1945*; and
- *Biosecurity and Agriculture Management Act 2007* and *Biosecurity and Agriculture Management Regulations 2013*.

There are also a range of policies, strategies and publications including:

- *EPA Guidance for the Assessment of Environmental Factors – Separation Distances between Industrial and Sensitive Land Uses*;
- *EPA Guidance Statement No. 33 Environmental Guidance for Planning and Development*;
- *State Planning Policy 2 Environment and Natural Resources Policy*;

- *State Planning Policy 2.5 Land Use Planning in Rural Areas* – objectives include to promote regional development through the provision of ongoing economic opportunities on rural land, to protect and improve environmental and landscape assets and to minimise land use conflicts;
- *State Planning Policy 2.9 Water Resources*;
- *National Environmental Guidelines for Piggeries* (May 2010); and
- *DWER Guidance Statement: Separation Distances* (draft) – August 2015 – sets a generic buffer of 1000 metres for noise impacts, with odour buffers determined through the criteria set out in the *National Environmental Guidelines for Piggeries*.

Policy Implications

It is suggested that Council clarify its approach to animal husbandryintensive uses and possibly also for rural industries through the review of the Local Planning Strategy and through preparing an associated Local Planning Policy. Having a town planning policy will assist to outline:

- the Council's overall support for these uses, possibly other than adjoining the townsites or in identified rural living areas, if relevant matters are appropriately addressed;
- that the applicant is required to appropriately address issues (and outline what issues the Shire is not considering);
- that applicants/operators need to be good neighbours, control their impacts and ideally own the buffer;
- minimum requirements from applicants in preparing the DA plans, letter and information;
- the relationship with industry guidelines, local laws and DWER works approvals/licencing; and
- the approach to consultation including whether additional considerations need to occur near the Dryandra Woodland.

Financial Implications

All costs associated with the development will be borne by the applicant/operator.

Should the applicant be aggrieved by Council's decision, the applicant may seek a review of that decision or conditions through the State Administrative Tribunal.

Economic Implications

Approval of this application will formalise the existing use and assist to support the operation to expand. This will assist to increase monies spent locally and assist with job creation.

Social Implications

No objections were received from adjoining/nearby landowners. Provided the landowner effectively manages the operation, the piggery should have manageable offsite impacts.

Environmental Considerations

It is suggested that the operator can suitably manage environmental impacts. There is a separate requirement for the operator to be registered for an offensive trade and to maintain APIQ accreditation.

Consultation

Adjoining/nearby landowners and relevant State Government agencies were invited to make comment on the Development Application.

Options

The Council can:

1. approve the Development Application with no conditions;
2. approve the Development Application with conditions;
3. refuse the Development Application (providing reasons); or
4. defer and seek additional information.

Voting Requirements Simple Majority

PIGGERY PLANNING APPLICATION TO THE SHIRE OF CUBALLING

Furphy & Co is a family partnership which owns and operates a mixed enterprise farming property in Cuballing. The pig, cropping and sheep enterprise is managed by Mark Furphy.

SITE DESCRIPTION

The 1100 hectare property is located at 290 Gaths Road, Cuballing, with the piggery being located on Loc 9081 (Appendix 1: Location & Farm Map)

Cropping and sheep production are the main enterprise of the property with pig production being an additional income.

The piggery was originally built in 1998 containing 12 shelters; 4 weaner, 7 growers and 1 weigh shelter, office/lunchroom and grain storage facilities. Since then a further 6 shelters have been erected allowing the site to hold 3000 weaner/grower bacon pigs. (Appendix 2: Infrastructure)

Access to the piggery is from Gaths Road, Cuballing, approximately 15km from the Cuballing town site. Both Gaths Road and the access roads are good quality gravel surfaces. The piggery is not visible from council roads.

The piggery does not have an electricity connection, nor does it use petrol generators. Surface water is collected in large dams and pumped to holding tanks, as is good quality groundwater from 2 bores. (Appendix 3: Farm Plan – services)

The piggery does not have any effect on the use and development of surrounding land and buildings.

PIGGERY OPERATION

There are currently 3000 pigs within the shelters. Expansion of the piggery is currently under debate with Westpork Pty Ltd and Furphy & Co would like these probable plans discussed and included in this application.

The expansion will comprise of an additional 8 shelters allowing a further 2000 grower and finisher pigs to be grown out in the facility. The new shelters will be erected west of the current piggery and built at the same eco shelter design. (Appendix 4: Expansion)

Class	Weight	Age (weeks)	SPU Factor	Current no. of pigs	Current SPUs
Weaner					
Grower	25-55kg	11-15	1.0	2000	2000
Finisher	55-100kg	16-22	1.6	2000	3200
Heavy Finisher	100-130kg	24-30	1.8	1000	1800
			Total	5000	7000

Replacement weaner stock is sourced from Westpork Pty Ltd, near Kojonup. Bacon weight stock is slaughtered at Linley Valley Pork in Wooroloo.

Piggery Management

Feed is sourced off farm by Wesfeeds and brought in once a week. Straw for bedding is provided on-farm.

Weaner pigs arrive on farm at 10 weeks and remain in the shelters for approximately 12 weeks. Sale weight pigs are sorted in the weigh shed before being loaded for transport to the abattoir.

Waste & Mortalities

Shelter waste is stockpiled on a clay-based site adjacent to the shelters and spread on cropping paddocks during February and March each year.

Mortalities are disposed of by shallow burial within combined straw/pig waste, composted and spread on paddocks. (Appendix 2)

We understand that an increase in pig numbers may impact on odour and noise, however believe that an expansion of this size will not have a large effect on neighbouring properties. It is also expected that the farm will be able to manage and dispose of the increase in waste and mortalities in the same manner as noted previously in this application.

Staff Numbers & Vehicle Movements

The piggery is currently leased to and operated by Ferdinand F. David of Narrogin with Mark Furphy providing assistance when required.

Vehicle movements are highest at harvest time, along with a weekly feed delivery, delivery of replacement breeding stock and removal of sale pigs.

Gath Road is a good quality gravel road; with main access to the piggery also via a good quality road, occasionally graded by the Shire Council to maintain safety.

ENVIRONMENTAL IMPACT ASSESSMENT

Community Amenity

The piggery is not visible from main roads. The nearest towns are Cuballing, Popanyinning and Wickepin all in excess of 15km away.

There are 7 residences within an 8km radius of the piggery. The nearest resident belongs to Mark Furphy with the second closest being Simon Newman, residing on Walsh Road. (Appendix 5: Residential Housing)

No complaints have been received from neighbours in relation to odour, dust or noise since the piggery has been located at the site.

Shelter cleaning is the event causing the highest odour risk. Noise is minimal except during loading times; however this is a weekly event and short in duration.

Water, Soil & Vegetation

Rainfall drainage runs into a natural waterway which travels a kilometre before leaving the farm. There are no drainage banks to prevent water flow through the piggery. (Appendix 6: Water Drainage)

Waste piles are located on higher ground, resulting in water flowing away and not through the storage site.

There are no impacts on soils and remnant vegetation.

INDUSTRY GUIDELINES

The piggery is currently accredited under the Australian Pork Industry Quality Assurance Program, APIQ. (Appendix 7)

Mr Gary Sherry
Chief Executive Officer
Shire of Cuballing

CUBALLING WA 6311

Dear Mr Sherry

PLANNING APPLICATION – PIGGERY – 290 GATH ROAD CUBALLING

I refer to your letter dated 8 December 2017, inviting comment from the Department of Water and Environmental Regulation (DWER) on the above application for planning approval and expansion of an existing piggery.

On 1 July 2017 the Department of Environment Regulation (DER) merged with the Department of Water and the Office of the Environmental Protection Authority to create the Department of Water and Environmental Regulation (DWER). The former agencies are in the process of amalgamating their functions. Note that the advice in this correspondence relates only to matters previously dealt with by the DER. You may receive additional advice from other areas within DWER.

Your referral relates to a facility that meets the definition of prescribed premises Category 2 – Intensive piggery, as per Schedule 1 of the *Environmental Protection Regulations 1987*. As such, the *Environmental Protection Act 1986* requires a works approval and a licence (for operation) to be obtained for the premises.

The purpose of a works approval is to allow the Department to assess the environmental acceptability of potential emissions and discharges of a proposal against standards and policies. Works approvals also contain conditions to ensure the premises can operate in an environmentally acceptable manner and that the works themselves do not cause unacceptable environmental impacts. Odour, groundwater protection and solid waste management are the key environmental risks relating to an intensive piggery premises.

While the Department has no comment on the planning approval, I can advise that the applicant has been advised that a works approval and licence are necessary for the existing and the proposed expanded piggery. To date no applications have been received.

Summary

Council is to consider writing off a sundry debt for Waste and Recycling Collection Charges was raised in error.

Background

Council introduced a waste and recycling collection service in 2016 and under provisions of the Waste Avoidance and Resource Recovery Act 2007 required all residences within the townsites of Cuballing, Popanyinning and Yornaning receive the service.

As part of Council's annual rates notice all properties with a residence receiving the waste and recycling collection service were charged \$250 for this service.

Comment

Council charged the owner of Rates Assessment A506 at 104 Alexandra Street Popanyinning a Waste and Recycling Collection Charge in 2016/17 and in 2017/18.

Just prior to the commencement of this service, the property owner intended to construct a residence on this property and had structures present on the property. The structures have since been removed.

Because there was not an approved residence on this property, Council charged for a service that the owner was not obligated to pay for.

The Officer Recommendation seeks to have Council write off this charge.

9.2.3 Scheme Amendment No. 4 to the Shire of Cuballing Town Planning Scheme No. 2

Location:	Applies throughout the district
Applicant:	Edge Planning & Property for the Shire of Cuballing
File Ref. No:	ADM273
Disclosure of Interest:	Nil
Date:	5 th February 2018
Author:	Gary Sherry
Attachments	9.2.3A – Proposed amending provisions – with modifications in track changes 9.2.3B – Submissions 9.2.3C – Schedule of Submissions

Summary

Following a review of the submissions, it is recommended that Council support Scheme Amendment No. 4 and advise the Minister for Planning to approve Amendment No. 4.

Background

As Councillors are aware, the *Shire of Cuballing Town Planning Scheme No. 2* (TPS2) provides the statutory basis for Council regulating development and land use proposals.

The purpose of Amendment No. 4 is to modify the TPS2 text to:

- ensure consistency with the ‘deemed provisions’ in Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015* (the ‘Regulations’);
- delete superfluous definitions and land uses;
- introduce new definitions and land uses to reflect realistic types of development anticipated in the district including repurposed dwelling and secondhand dwelling. Where new definitions are introduced, they are based on the Model provisions for local planning schemes from Schedule 1 of the Regulations or refer to the *Residential Design Codes*;
- introduce Schedule A – Supplemental Provisions to extensively reduce the requirement for a development application for a range of lowkey and lowrisk development/uses;
- update the Zoning Table to reflect expected permissibility for development in small country towns and in a rural district;
- modify Development Table – General to address standards appropriate for a rural district; and
- undertake minor administrative changes.

The scheme amendment number was previously incorrectly classified when the matter was reported to Council on 20th July 2017 and during the public advertising. The correct scheme amendment number is No. 4.

At the Council Meeting on 20th July 2017, the Council passed the following motion, at Minute No. 2017/71:

“That Council:

1. Agrees to adopt an amendment to the *Shire of Cuballing Town Planning Scheme No. 2*, pursuant to section 75 of the *Planning and Development Act 2005*, through modifying the Scheme text as outlined in Attachment 9.2.5A.
2. Determines that Amendment No. 1 is standard under part (f) and (g) of the standard amendment definition contained in Regulation 34 of the *Planning and Development (Local Planning Schemes) Regulations 2015*.
3. Authorises the Shire President and the Chief Executive Officer to execute the Scheme Amendment No. 1 documents as outlined in Attachment 9.2.5A.

4. Notes the Shire will refer Scheme Amendment No. 1 to the Environmental Protection Authority for assessment pursuant to section 81 of the *Planning and Development Act 2005*. Should the Environmental Protection Authority advise that the amendment does not require assessment, advertise the amendment in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015*.”

Following the Council resolution, the Environmental Protection Authority (EPA) determined that the scheme amendment should not be assessed via an environmental impact assessment. The EPA decision effectively gave its “environmental clearance” to Amendment No. 4.

The Shire has met the requirements of the Regulations through seeking public comment on Scheme Amendment No. 4 for a period of 42 days through:

- writing to relevant State Government and servicing agencies;
- placing public notices in local papers;
- details being on the Shire’s website; and
- having information available at the Shire office.

The Shire received two submissions on Scheme Amendment No. 4 both raising no objections (see Attachment 9.2.3B). The Department of Primary Industries and Regional Development highlight that the revised scheme provisions do not however address development issues in relation to offensive/noxious rural industries e.g. piggeries and intensive rural industry requiring consideration for environmental management e.g. feedlots.

The associated Schedule of Submissions is set out in Attachment 9.2.3C. This includes the local government response and the local government recommendation on the Department of Primary Industries and Regional Development submission.

By way of background, the Regulations were gazetted on 25 August 2015. The Regulations, made under the *Planning and Development Act 2005* (the ‘Act’), govern the way in which local planning strategies, local planning schemes and structure plans are prepared and amended.

Schedule 2 of the Regulations titled ‘Deemed provisions for local planning schemes’ apply to all planning schemes and prevail over schemes including TPS2. The deemed provisions are ‘read into’ schemes automatically under Section 257B of the Act. Provisions in TPS2, which are inconsistent with the deemed provisions, ceased to apply as of gazettal of the Regulations.

The deemed provisions address a range of matters including uniform processes and procedures to schemes, such as structure plan preparation and the development assessment. The deemed provisions apply automatically to all schemes when the Regulations come into operation and cannot be altered, varied or excluded.

Section 73(2A) of the Act allows for a scheme to include supplemental provisions, provided those supplemental provisions are consistent with or not already covered by the Regulations.

Amendment No. 4 proposes to remove provisions which have been replaced by the deemed provisions. The amendment is a standard amendment in accordance with part (g) of the standard amendment definition contained in Regulation 34 of the Regulations as it seeks to add special provisions to the TPS2 scheme text.

Comment

It is recommended that Council resolves to support Scheme Amendment No. 4 with minor modifications to the version considered by the Council on 20th July 2017 and which was subject to community and stakeholder advertising. The modifications are provided in track changes in Attachment 9.2.3.A. The changes are addressing minor administrative errors and now requiring a Development Application for 'agriculture intensive' uses in the General Agriculture Zone. The modification relating to agriculture intensive uses reverts the approach to what is currently in TPS2.

TPS2 defines agriculture – intensive as follows:

“agriculture intensive” means premises used for trade or commercial purposes, including outbuildings and earthworks, associated with the following –

- (a) the production of grapes, vegetables, flowers, exotic or native plants, or fruit or nuts;
- (b) the establishment and operation of plant or fruit nurseries;
- (c) the development of land for irrigated fodder production or irrigated pasture (including turf farms); or
- (d) aquaculture;”.

Currently, agriculture intensive uses are a 'P' use (permitted use) in the General Agriculture Zone which means that a Development Application is required. The advertised draft version of Amendment 4 proposed that intensive agriculture be modified to a 'permitted development' in the General Agriculture Zone (where no Development Application is required). On closer reflection, in considering the economic base of the district and possible future land use compatibility issues, it is suggested to retain the current TPS2 requirement of landowners/proponents being required to submit a Development Application for intensive agriculture uses in the General Agriculture Zone.

Subject to the Council's decision, copies of the submissions, the Schedule of Submissions and the amendment documentation will be forwarded to the Western Australian Planning Commission who will assess the scheme amendment request with the final decision made by the Minister for Planning.

Strategic Implications

Approval of Scheme Amendment No. 4 will assist in improving the efficiency and effectiveness of the planning system.

Statutory Environment

Planning and Development Act 2005, Planning and Development (Local Planning Schemes) Regulations 2015 and TPS2.

Policy Implications

The Council may wish to consider preparing an associated Local Planning Policy on animal husbandryintensive uses.

Financial Implications

This has already been budgeted for.

Economic Implications – Nil
Social Implications – Nil
Environmental Considerations – Nil

Consultation

Amendment No. 4 was publicly advertised in accordance with the Regulations.

Options

Based on Regulation 50(3) of the *Planning and Development (Local Planning Schemes) Regulations 2015*, the Council has a number of options available to it which are summarised below:

1. support the amendment without modification;
2. support the amendment with proposed modifications to address issues raised in the submissions; or
3. not to support the amendment (giving reasons).

Voting Requirements – Simple Majority

COUNCIL DECISION – 2018/08:

That Council:

- 1. agrees to support a standard amendment to the Shire of Cuballing Town Planning Scheme No. 2, pursuant to Part 5 of the Planning and Development Act 2005, incorporating the minor modifications, in tracked changes, to the previously prepared Scheme text amendment as outlined in Attachment 9.2.3A. This includes that ‘agricultureintensive’ is removed from Schedule A – Supplemental Provisions in clause 61(1)(za) in the General Agriculture zone;**
- 2. endorses the ‘Local Government Recommendation’ in the Schedule of Submissions as shown in Attachment 9.2.3C;**
- 3. advises agencies who lodged a submission that their comments were noted;**
- 4. authorises the Shire President and the Chief Executive Officer to execute the Scheme Amendment No. 4 documents; and**
- 5. forwards a copy of all submissions as shown in Attachment 9.2.3B and the Schedule of Submissions as shown in Attachment 9.2.3C to the Western Australian Planning Commission for assessment and final approval by the Minister for Planning.**

Dear Garry,

**RE: TOWN PLANNING SCHEME No.2, OMNIBUS SCHEME AMENDMENT No. 3,
SHIRE OF CUBALLING**

Thank you for presenting the Department of Primary Industries and Regional Development (Agriculture and Food) with the opportunity to comment on the proposed amendments to Town Planning Scheme No.2, Shire of Cuballing, in particular to;

- (a) Align the Scheme with the 'deemed provisions' in Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations, gazetted in 2015; and
- (b) Update and improve the definitions and permissible uses in the Scheme's Zoning Table in relation to rural land and other uses that may impact adjacent rural enterprises.

While the Department of Primary Industries and Regional Development (DPIRD) in principle has no objection to the proposed scheme amendments, the revised Scheme text does not address development issues in relation to offensive / noxious rural industries (e.g. piggeries), and intensive rural industry requiring consideration for environmental management and acknowledgment of the BAM Act (e.g. feedlots).

If you have any questions in relation to this response, please contact Tim Overheu on 9892 8444 or by email to: landuse.planning@dpird.wa.gov.au.

Yours sincerely

The definition in the Regulation's is outlined below:</p> <p>'animal husbandry — intensive' means premises used for keeping, rearing or fattening of pigs, poultry (for either egg or meat production), rabbits (for either meat or fur production) or other livestock in feedlots, sheds or rotational pens;</p> <p>The amendment does not propose to change the permissibility of animal husbandry – intensive in the different zones. 9.2.4 Cuballing LCDC – Proposed Winding Up

Summary

Council is to consider supporting delaying the proposed winding up of the Cuballing LCDC.

Background

The Cuballing Land Conservation District Committee (LCDC) is a statutory committee established under Sections 22 and 23 of the Soil and Land Conservation Act 1945 to manage activities in the Cuballing Land Conservation District that was proclaimed by the Governor in 1990.

When the members' term of appointment expired 31st July 2004, the Cuballing LCDC ceased to exist. Since that time the Cuballing LCDC has had no authority to operate. As it is apparent that there is now a lack of interest in continuing the Cuballing LCDC, the Commissioner of Soil and Land Conservation has moved to wind it up.

Before presenting the recommendation to the Minister, the Commissioner needs to obtain support for the proposal from the local governments within a district. As the Cuballing Land Conservation District is within the Shire of Cuballing, the Commissioner requested Council support for the proposal in 2017.

At the June 2015 Ordinary Meeting, Council resolved the following:

COUNCIL DECISION:

That Council support the recommendation of the Commissioner of Soil and Land Conservation to wind up the Cuballing Land Conservation District Committee.

Moved: Cr Bradford

Seconded: Cr Haslam

Comment

The Commissioner of Soil and Land Conservation gave a notice to the Shire of Cuballing that was subsequently included in the December 2017 edition of *The Cuballing News*: advising that the Cuballing LCDC was proposed to be abolished because of lack of interest. The notice gave an opportunity to comment to the Minister for Agriculture and Food before the LCDC is formally wound-up.

Ms Libby Newman has sought to delay the winding up of the Cuballing LCDC and contacted the Commissioner of Soil and Land Conservation to do that.

The Commissioner has advised Ms Newman with the following response:

The Commissioner has considered your request and advised that he will cease plans to abolish the LCDC, to allow you time to gauge community support for its continuance and enable you to start the process of re-establishing the committee.

Each LCDC has an Establishment Order, published in the Government Gazette, which sets out its constitution, in accordance with the Soil and Land Conservation Act 1945. The Cuballing LCDC membership currently comprises of the following members:

- 1 Commissioner or his nominee (sourced by us)
- 1 Shire of Cuballing nominee
- 3 Nominees representing WA Farmers
- 14 persons actively engaged in or affected by or associated with land use in the district
- 19 TOTAL

You will need to seek nominations for the 'landuser' category via an advertisement in the local paper. Each nominee will need to complete a nomination form (see attached) and all nominations will need to be presented at a public meeting. I have also enclosed a fact sheet to assist in this process.

Once nominations have been received and you have had an opportunity to consider them, you are able to approach the Commissioner and seek to have the numbers in the landuser category amended if required. The total membership is currently 19 with a quorum of 10.

The Shire of Cuballing has previously advised the Commissioner that they have no objection to the abolition of the LCDC, so you will need to seek their support and their nomination for the Committee if you decide to move forward.

It would also be useful if you could establish if there are any members of WA Farmers who are interested in nominating for the LCDC.

While Ms Newman was not involved with the previous committee she would like to gauge interest from the newly formed Cuballing Women In Farming Enterprise (WIFE) group. Ms Newman would like to investigate:

- 1. the ongoing need for the Cuballing LCDC
- 2. support for the Committee including the Cuballing WIFE group, Peel Harvey Catchment Council, local farmers and the wider community;
- 3. Workshops/Guest speakers etc available to the Community via LCDC
- 4. Funding/Grants which are now available to the community via the LCDC.

Ms Newman has advised that the Cuballing WIFE branch meets in February and she will be available to update Council on the level of support available.

Whilst the Cuballing LCDC has completed valuable work in the past, the Council decision of June 2015 was strongly based on the committee having not met for seven years and a lack of community interest in re-establishing the committee. If community residents including Ms Newman, wish to restart the Cuballing LCDC then Council should look to support that.

Under the Cuballing LCDC Establishment Order the Shire of Cuballing is required to provide a nominee to the committee. Council may wish to consider a nominee to a revitalised Cuballing LCDC who could monitor the current efforts to re-establish the committee at this time.

Statutory Environment

Land conservation district committees are statutory bodies formed under section 23 of the Soil and Land Conservation Act 1945 (the Act) and appointed by the Commissioner of Soil and Land Conservation to administer Land Conservation Districts.

The Act lists a range of activities that Land conservation district committee can complete. Activities outside that list need the authority of the Commissioner of Soil and Land Conservation.

Environmental Considerations

Whilst the Cuballing LCDC has completed valuable environmental work in the past, local land owners are now completing soil conservation of their properties via other methods.

9.2.5 Writeoff of Waste & Recycling Collection Charges – 26 Lord Street Popanyinning

Applicant: N/A
File Ref. No: A215
Disclosure of Interest: Nil
Date: 31st January 2017

Summary

Council is to consider refunding charges incorrectly levied for Waste and Recycling Collection Charges at 26 Lord Street Popanyinning.

Background

Council introduced a waste and recycling collection service in 2016 and under provisions of the Waste Avoidance and Resource Recovery Act 2007 required all residences within the townsites of Cuballing, Popanyinning and Yornaning receive the service.

As part of Council's annual rates notice all properties with a residence receiving the waste and recycling collection service were charged \$250 each year for this service.

The owner of 26 Lord Street Popanyinning resides outside the Shire of Cuballing and visits this Popanyinning property from time to time. From time to time the owner visits Popanyinning and stays in the residence on the property. The minimal waste from these visits has either been delivered to the Popanyinning Transfer Station or taken back to Perth for disposal with the owner's Perth residence collection service.

Comment

Council has charged the owner of Rates Assessment A215 at 26 Lord Street Popanyinning a Waste and Recycling Collection Charge in 2016/17 and in 2017/18. The owner has paid this charge by the due dates required.

However, because of an oversight by the Shire staff at the time of delivery, waste and recycling bins were provided to at 26 Lord Street Popanyinning. The residence on this property is not visible from Lord Street and the access road is slightly over grown because it is not regularly used. The owner did not raise this matter with Council until December 2017.

Council's waste and recycling collection contractor has now delivered bins to 26 Lord Street Popanyinning in January 2018.

The Officer Recommendation seeks Council refund the owner of Rates Assessment A215 at 26 Lord Street Popanyinning in the following manner

Financial Year of Charge	Amount	Refund Proposed	Reasoning
2016/17	250.00	250.00	Entire year refunded
2017/18	250.00	145.83	7 Months
TOTALS	500.00	395.83

9.2.6 Peel Harvey Catchment Council – Memorandum of Understanding

Applicant:	N/A
File Ref. No:	ADM81
Disclosure of Interest:	Nil
Date:	26 th May 2017
Author:	Gary Sherry
Attachments:	9.2.6A Draft MOU

Summary

Council is to consider entering a Memorandum of Understanding with the Peel Harvey Catchment Council (PHCC) and 3 other local governments to establish principles of local government support of PHCC activities in the Hotham Williams Catchment area.

Background

The PHCC, through funding from the Australian Government and State NRM Program have been providing onground support to landowners across the HothamWilliams catchment for a number of years. This support has been able to be increased in the last four years, thanks to funding received through the Australian Government via the “Rivers 2 Ramsar” project, and more recently through the National Landcare Programme. Approximately \$700,000 has been invested in the Hotham Williams Catchment through the PHCC since 2013 for onground projects such as fencing of rivers and bushland, revegetation, feral animal control support, weed removal and investment in community groups.

Comment

The PHCC is looking to apply for Federal Government funding through the National Landcare Program. This program is the PHCC’s main source of funding and the PHCC are looking to demonstrate local government support and contribution in their application process.

To demonstrate this commitment the PHCC has prepared a draft MOU, included at Attachment 9.2.6, that formalises and demonstrate the partnership between the PeelHarvey Catchment Council (PHCC) and the Shires of Boddington, Williams, Wandering and Cuballing in providing natural resource management/landcare support to the HothamWilliams catchment. The footprint of the works/support will extend to include those portions of the Shires of Pingelly, Collie, Narrogin and Wickepin, within the surface water catchment of the PeelHarvey.

Under the MOU the PHCC will be responsible for providing a NRM Officer/s (based in Boddington) to provide the knowledge, skills and resources to landowners to facilitate on ground and engagement activities. Funding will be directed by the PHCC to the HothamWilliams catchment to ensure onground activities can be undertaken.

The Shires commit to providing funding to help cover the cost of the gap that exists in the NRM services costs to enable the NRM officer/s to effectively provide NRM support in HothamWilliams as outlined in the table below. The Shire will also commit to providing a Senior Staff member or Councillor to attend at least one Steering Committee meeting each year to provide the Shire’s input into the prioritisation of activities as per the HothamWilliams NRM Plan.

In discussions with other local governments it is expected that the Shires of Boddington, Williams and Wandering will enter into the MOU with differing levels of financial contribution.

The levels of commitment by local Governments include:

- the Shire of Boddington have committed to \$25,000 in year 1 and to review further commitment levels upon commencement of the program;
- the Shire of Williams are expected to commit to \$10,000 and to commit to consideration of a \$5,000 ongoing annual commitment; and
- the Shire of Wandering are expected to commit to inkind support over the term of the MOU.

The Officer's recommendation includes an out of budget contribution in 2017/18 and a commitment for consideration of a \$5,000 ongoing annual commitment.

Strategic Implications

Protection of the environment and preserving the natural assets of the Shire of Cuballing is one of the key strategies identified in the Strategic Community Plan.

Statutory Environment – Nil

Policy Implications – Nil

Financial Implications

Funds have been allocated in this year's budget. Out of budget approval for a contribution of \$2,500 is part of the Officer's Recommendation.

Economic Implication

Social Implication

The PHCC have supported local community groups to assist with addressing threats such as feral animals and weeds in public and private spaces in the Shire of Cuballing.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into between:

PeelHarvey Catchment Council Inc.

and

The Shires of Boddington, Williams, Wandering and Cuballing

August, 2018 to August, 2023 (5 years)

(funding commencing 2017/18)

Purpose of the MOU

The purpose of the MOU is to formalise the partnership between the PeelHarvey Catchment Council (PHCC) and the Shires of Boddington, Williams, Wandering and Cuballing to provide natural resource management/landcare support to the landowners and community of the HothamWilliams catchment, as defined within the HothamWilliams NRM Plan 2015/2025. The footprint of the works/support will extend to include those portions of the Shires of Pingelly, Collie, Narrogin and Wickiepin, within the surface water catchment of the PeelHarvey.

The PHCC, through funding from the Australian Government and State NRM Program have been providing onground support to landowners across the HothamWilliams catchment for a number of years. This support has been able to be increased in the last four years, thanks to funding received through the Australian Government via the "Rivers 2 Ramsar" project, and more recently through the National Landcare Programme. Via the PHCC approximately \$700,000 has been invested in the Hotham Williams since 2013 for onground projects such as fencing of rivers and bushland, revegetation, feral animal control support, weed removal and investment in community groups. It has also enabled the development of the HothamWilliams NRM Plan, with the community, to provide a framework to implement community priorities.

A collaborative arrangement is required to continue to build the capacity of the HothamWilliams community for ongoing natural resource management/landcare activities. The uptake and involvement of the community currently relies on the support provided by the PHCC via a locally placed NRM Officer, supported by the governance and supporting frameworks of the PHCC. Approximately \$145,000 is required per annum to continue this and this MOU defines the contributions of each organisation.

The Shires of Boddington, Williams, Wandering and Cuballing are important delivery partners and their collaborative roles with the PHCC in reinvigorating NRM in the HothamWilliams since 2013 is acknowledged.

This MoU has two primary purposes, the first is to solidify and define the relationships between the Shires and the PHCC, and secondly to demonstrate a commitment to continue to work together to deliver these important community services (as defined in the NRM Plan) through cash funding and/or other support. The PHCC will continue to provide funding as is available to ensuring there are NRM human resources available in HothamWilliams, as well as funding to deliver onground outcomes, wherever possible.

Roles and Responsibilities

The PHCC will be responsible for providing a NRM Officer/s (based in Boddington) to provide the knowledge, skills and resources to landowners to facilitate on ground and engagement activities. Funding will also be directed to the HothamWilliams catchment to ensure onground activities can be undertaken. The PHCC will facilitate regular meetings of a steering committee, made up of community representatives from the PHCC Board, including representatives from both within and outside of the HothamWilliams. Community representatives will also be invited, where and when appropriate, to help

provide community input into the direction of NRM activities that are undertaken and ensure projects are consistent with the HothamWilliams NRM Plan. The PHCC will ensure regular communication to the Shires on proposed activities as well as any achievements that are completed via this MoU and ongoing partnership, on a minimum of an annual basis.

The Shires commit to providing funding to help cover the cost of the gap that exists in the NRM services costs to enable the NRM officer/s to effectively provide NRM support in HothamWilliams as outlined in the table below. The Shire will also commit to providing a Senior Staff member, or Councillor to attend at least one Steering Committee meeting each year, to provide the Shire's input into the prioritisation of activities as per the HothamWilliams NRM Plan.

Funding

The below table outlines the financial needs of the position to effectively provide NRM support to the HothamWilliams Community, and defines the agreed financial contributions of each. This funding will provide for 1 x full time equivalent officer (over 1 or more persons); Supervision and Administration; Vehicle lease and running costs; Governance, supervision and Steering Committee support.

9.2.7	Provision of Online Licensing Services – Renewal of Agreement
-------	---------------------------------------------------------------

Applicant:	N/A
File Ref. No:	ADM81
Disclosure of Interest:	Nil
Date:	4 th February 2018

Attachments:	9.2.7A DOT964017 Agreement for the Provision of Licensing Services In Shire of Cuballing In Terms of Section 11 of the Road Traffic (Administration) Act 2008
	9.2.7B 5DOT964017 Agreement for the Provision of Non Road Law Functions in Shire of Cuballing.

Summary

Council is to consider renewing the agreement with the Department of Transport for the Shire of Cuballing to continue to provide online licencing services.

Background

The current agreement for the provision of online licencing services for the Shire of Cuballing expired on the 31st December 2017.

On 15th November 2017 the Department of Transport Regional Director contacted the Shire of Cuballing by telephone and advised that the Shire of Cuballing will be offered a 3 year agency agreement with a CPI increase of fees.

In general the Department of Transport are looking to save costs in the provision of licencing services and make online services more attractive. The cost of services provided from the Department's "face to face" operations are in the region of \$40 per transaction.

As part of the push to reduce costs the Department of Transport appears to have a preference to reduce the number of agents in the rural area. The Department of Transport verbally advised that if 50 rural agencies were to be closed this would save \$500,000.

The Shire of Cuballing complete some 1,056 transactions a year. Of these transactions 60% could be completed more easily on line.

Comment

Council received the draft agreements on Friday 22nd December 2018 with a request to have the executed agreements returned by 1st February 2018. This date has been extended to 31st March 2018 to allow consideration by Council.

The draft documents are in two parts:

1. DOT964017 Agreement for the Provision of Licensing Services in Shire of Cuballing in Terms of Section 11 of the Road Traffic (Administration) Act 2008 included at Attachment 9.2.7A. This relates to all vehicle licencing transactions.
2. DOT962117 agreement for the provision of non-road law functions in Shire of Cuballing included at Attachment 9.2.7B. This agreement relates to all other transactions that may include photo card applications and off road vehicle registrations.

The Shire of Cuballing has provided this valuable service to the Shire of Cuballing community for many years and it is recommended that the agreement be renewed for a further three year term.

Strategic Implications – Nil

Statutory Environment – Nil at this time

Policy Implications – Nil

Financial Implications

Council has budgeted in 2017/18 to receive \$8,000 in income from commission paid by the Department of Transport for providing licencing services. In 2016/17 Council received \$10263.79. This income does not reimburse all of Council's cost in providing this service, but does provide income to support the provision of administration resources. If Council was not complete this service, the amount of administration services could not be reduced.

Department of Transport meet the higher costs of providing this service such as training and IT expenses.

Council should not expect to see an increase in the commission paid to Council over the life of this agreement.

Economic Implication

The experienced Shire staff are able to provide complex vehicle licencing services to local industry who rely on access to this service.

Social Implication

The Shire staff are able to provide vehicle licencing services that support local access to licensing services such as local authority number plates that build and support community spirit.

Environmental Considerations – Nil

Consultation

Shire staff have discussed these agreements with Council's of the Central Country Zone of WALGA, WALGA staff and the Department of Transport.

Options

Council may resolve:

1. the Officer's Recommendation;
2. to not undertake online licencing services in the Shire of Cuballing.

Voting Requirements – Simple Majority

COUNCIL DECISION – 2018/12:

That Council:

- 1. approve DOT964017 Agreement for the Provision of Licensing Services in Shire of Cuballing in Terms of Section 11 of the Road Traffic (Administration) Act 2008 included at Attachment 9.2.7A;**
- 2. approve DOT962117 agreement for the provision of non–road law functions in Shire of Cuballing included at Attachment 9.2.7B and**
