Monthly publication for Cuballing, Yornaning and Popanyinning

April 2025

One Year!

One year ago the Cuballing Shire starting holding beginner strength and balance classes at the Cuballing Ag Hall. What was only to be a 6 week program soon turned into a year after we saw the profound benefits these classes have.

\$5.00 is less if not the same as a cup of coffee but these classes offer more health benefits such as strength building and socializing. Balance in older Australians decreases with age. As a result of inactivity and as part of the natural ageing process, older adults may experience decreased muscle mass and a reduced ability to produce muscular force quickly, which can increase their falls risk.

Participation in exercise is one of the most effective strategies to reduce the risk of having a fall due to its role in maintaining muscle and strength, increasing endurance, and improving gait, balance, and mood. Kate has tailor made a progressive program which aids in building those muscles needed for balance, getting off the couch unassisted and so you can continue to open those jars of food!

These classes are not just for women men are benefitting too!

If you would like to sign up you are welcome to join. Classes are \$5pp and held each Monday from 9.30am. Following the classes there is a social morning tea next door at the Cuballing CWA hall.

MANY PRIZES AND MUCH FUN TO BE HAD

ACTING PRESIDENTS PEN

Gradually the warm weather is coming to an end, and everyone will welcome a transition to cooler and hopefully wetter conditions after a long hot summer. A significant thunderstorm on the 13th of March provided much needed runoff for dams and tanks in the Shire, including the town dam on Springhill Road which had reached very low levels. There has been quite a bit of smoke in the air from controlled burns as farmers prepare for their upcoming seeding programs. A reminder that we are still in Restricted burning season and permits must be obtained from a local Fire Control Officer before burning can commence. Permit holders are required to abide by the conditions listed on the permit which include notifying neighbours and logging to DFES and reporting the proposed burn as a controlled burn.

The works crew have been busy constructing and maintaining our network of local roads including the Stratherne Road and Cuballing East Road. These roads are built to a very high standard and involve a considerable amount of expertise. Thank you to motorists and transport operators for their patience during this this time.

The coffee with the CEO concept has been well received by the community and our CEO Chris has enjoyed this interaction. These were held at the Cuby Roadhouse and the Popo School. It offers a less formal opportunity to meet Chris, discuss community issues or just have a chat and more are planned in the future.

I wish everyone a Happy Easter, enjoy the break and if you are travelling, please take care on the roads.

POPANYINNING COMMUNITY HUB

The Popanyinning Community Hub idea came 3 years ago, we saw a need for a community-based venue in Popanyinning and as the school was not being used this proved to be the best home. It has not been easy though.

As most would know the Popanyinning School opened on June 1st, 1905 and was a functioning school until the end of 1973 since then the school has sat there, some community groups have used the space over the years but nothing really took or people moved on.

In 2010 a community meeting was held, majority voted to “fix her up” while others wanted to move the school to another location but moving the school would have been a mammoth costly job, so the Shire employed a local contractor to spruce her up again and a reunion/opening was held in late 2012.

Since then, the school has sat idle until 2023 when the community hub idea was formed. Initially we were just going to replace the kitchen and have a Shire Staff member work out of the school 1 day a week. Great, let's give it 6-month timeframe then open up to the public, well, I think within the first week we realised that was very, very optimistic. The old girl had some curve balls left to throw at us and that was the very start of a long 3 -year renovation. Since then, the school has undergone a full revamp, asbestos removal throughout, new kitchen, new plaster and ceilings, hot water system, full power upgrade, been restumped in areas, air cooling/heating installation and the toilets made usable again.

While not everything was completed due to money restraints but what has been done brings the school up to current standards while keeping her yesteryear charm.

The Popanyinning Community Hub will be open for business or for people to drop in have a coffee, read a book, visit our library, book exchange, use the computer, do some printing or photocopying from **May 6th at 9am**.

Office Opening Hours:
Monday—Thursday,
8.30am—4.30pm

POPANYINNING COMMUNITY HUB —*continued*

The Popanyinning Hub is also the home to the all-new Wandoo Community Shed and the Popanyinning Community Gardens. We are also open to any other community group looking for a meeting place or for any students looking for a quiet place to study, please feel free to email Michelle on cdo@cuballing.wa.gov.au call/text **0482 654 640** or drop in for a chat about any ideas you may have.

The Community Hub is a Shire and Popanyinning Progress Association funded project, but we are in need of donations to continue with the community garden and furnishing the Hub

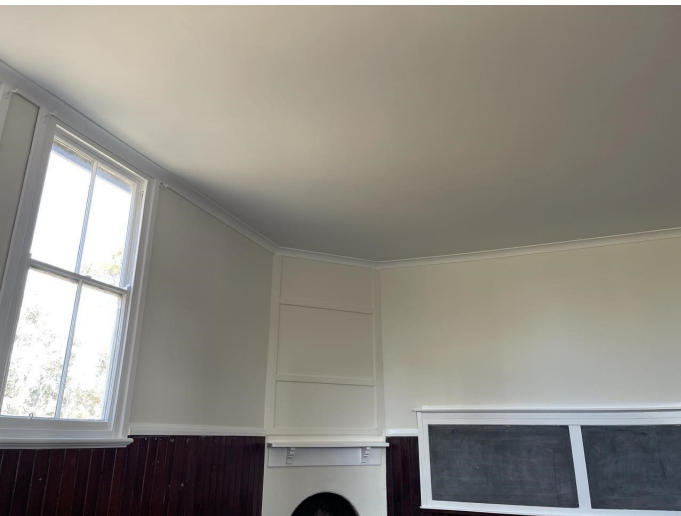

Currently we are looking for 2 large bookcases to store our book exchange, a 2-seater couch, kids chairs, table for our kids' corner and gardening supplies, rakes, shovels, hoses, raised garden beds, wheelbarrows, worm farms, and soil for our community garden.

If you have any donations, please contact

Michelle – 0482 654 640

COUNCIL SHORTS

2024 Compliance Audit Return

In accordance with the Audit Committee's recommendation, Council resolved to adopt the completed Compliance Audit Return for the period 1 January to 31 December 2024.

Joint MOU – Tourism Services

A Memorandum of Understanding between the Shires of Cuballing and Narrogin to formalise the existing partnership to manage and promote shared tourism assets within our region was accepted and approved by Council; there has previously been no agreement in place.

Local Government Elections 18 October 2025

Council declared that in accordance with section 4.20(1) of the *Local Government Act* 1995, the Chief Executive Officer will be responsible for the conduct of the 2025 ordinary Council election (and any other elections or polls that may be required thereafter). Council also determined that the method of conducting the election will be by voting in-person.

Superannuation for Elected Members

Following passage of the *Local Government Amendment Act* 2024, new sections 5.99B to 5.99E of the *Local Government Act* 1995 (the Act) will allow local governments to resolve by absolute majority to make superannuation contributions for council members from 1 February 2025.

From 1 February 2025 all local governments in WA have had the option to resolve by absolute majority to make superannuation contributions for council members. For class 3 and 4 local governments – the Shire of Cuballing is in class 4 - the payment will remain optional for each council to decide if they want to make superannuation contributions to council members or not.

Our Council determined that it does not support the payment of superannuation to the Elected Members.

Planning and Development Matter

Application for Development Approval – Extended shed and extended garage (oversized outbuildings) – Lot 134 (No. 142) Bunmulling Road, Popanyinning

Council approved this Development Application in full, subject to the four planning conditions as listed in the report and other specific advice.

Presiding Members for Council Committees

Amendments to the [Local Government Act 1995](#) made in December of 2024 changed the means of appointing Presiding Members to committees of Council established under section 5.8 of the Act. This means that rather than being elected by fellow members of the Committee, a Presiding Member must now be appointed by absolute majority decision of the Council. As a result, Council formally appointed Cr Scott Ballantyne as the Presiding Member of the Audit Committee in accordance with section 5.12 of the *Local Government Act* 1995.

“Coffee with the CEO” – Popanyinning Friday 28 March 2025

Once again, I had a lovely time meeting with local residents at our second “Coffee with the CEO” session held at the new community hub in the old Popanyinning School – thanks so much to everyone who turned out to have a cuppa and a chat. Following our two hours here, I took the opportunity to drive right around and through Popo with Councillor Adrian Kowald to get a better idea of the layout of town and first-hand view of areas we are planning to develop future local projects in and other works to try alleviating some issues around natural/seasonal hazards.

WANDOO COMMUNITY SHED

Over the past few months, I have been asked, " Why are we known as the Wandoo Community Shed?"

When it was decided by the Cuballing Women's Shed to evolve into a Community Shed open to all genders, a discussion about selecting a new name for the group took place among members (existing and new).

Since the group decided not to have a town included in the name of the shed, other ideas were offered. Plant names were included in the list provided by members.

After voting and revoting on the names put forward by members, Wandoo Community Shed was chosen.

Why was Wandoo chosen?

We live in the Avon Botanical District in the South West Botanical Province of Western Australia. Many of our members live in towns or on properties in 'Woodlands' areas where Wandoo (Eucalyptus wandoo) can be found mixed in with Salmon Gum, York, Gimlet or Mallet.

Wandoo is a name which encompasses the homes of our members who currently come from Popanyinning, Yornaning, Cuballing and Narrogin.
(With a few travelling down from Perth.)

So, hopefully, I have answered that question.

We always look forward to meeting new people and catching up with our current Wandoo members.

" The Wandoo Community Shed will be meeting on Thursday, 10th April from 10am at The Popanyinning School Hub. All are welcome. "

Rhys Williams
President

CUBALLING CRICKET WINDUP

The Cricket Club held their windup last Saturday at the Recreation Centre.

Players, families, and friends gathered for a BBQ lunch which was enjoyed by all with a great variety of salads supplied by those in attendance, followed by sweets.

Following the luncheon our President Bevan George thanked everyone for their contribution to the Club during the year. Both the A Grade and B Grade progressed to the finals from fourth position with the A Grade being eliminated in the preliminary final and the B Grade, after a gallant performance went down to Towns in the Grand Final by seven runs.

On a sad note, the Club farewelled a favourite son in Blair Forrest who with his wife Stacey and children have decided on a sea change to Albany. Blair has been with the Club for 23 years and has been active Clubman during that time taking on rolls as Captain, fund raising, Committee Member, Busy Bees, Country Week representative, UGS Delegate, two years as UGS President and many other of those jobs that have helped our Club become successful. We all wish Blair, Stacey, and family all the very best for the future.

We thank the Shire of Cuballing for the care of the oval and facilities. We also thank our sponsors and trophy donors for their long-standing contribution and commitment to the Club.

Presentations were then made to the players as follows:

A Grade

Batting Aggregate and Average was won by Kendal Ballard

Bowling Aggregate and Average was won by Grady Francis

Cricketer of the Year was won by Grady Francis

Players who took 5 or more wickets were:

Grady Francis - 7 /18 including a hat trick

Damon Watt - 5/38 Roger Ballard - 5/24

B Grade

Batting Aggregate - Jaco Moolman

Batting Average – Roger Ballard

Bowling Aggregate – Matthew George

Bowling Average – Matthew George

Cricketer of the Year Jaco Moolman

Junior Award - Matthew George

Most Improved -Taj Carruthers

After the presentations the boys enjoyed some games on the oval lead by Joe Dowling, An interesting version of croquet was played and an even more version of a golf "hole in one" was proving a challenge for all. Players teed off from In front of the change rooms out onto the oval where they had to land the ball In a "bucket", Andrew Harris showed how it was done.

The "Cuballng Gift" was then run "twice" with some runners performing very impressively.

A great day was had by all, and we a now look forward to next season and hopefully keep our Club a happy and successful one.

Magical Night at Barna Mia

We had a lovely night at Barna Mia in Dryandra Woodland National Park with members of the Wilman community, the Traditional Owners of Dryandra Woodland.

The night began with a special Welcome to Country from Wilman Elder, Travis (Jock) Abraham, followed by a lovely dinner. We then took a tour of the sanctuary to look out for bilby, woylie, mala, quenda and boodie. Of these five species that once called Dryandra Woodland home, only woylies and quendas can still be found in the woodland today.

We learned about the threats these species face, including predation by foxes and feral cats, as well as habitat loss. It was an amazing night under the stars.

Thank you to everyone who came along!

Find out more about Barna Mia here <https://exploreparks.dbca.wa.gov.au/site/barna-mia-nocturnal-wildlife-experience>

This project is funded by the Australian Government Natural Heritage Trust and delivered by PHCC, a member of the Commonwealth Regional Delivery Partners panel.

Rabbit Control

European Rabbits are Australia's most destructive and widespread environmental and agricultural pest animal. The most effective approach to rabbit control uses a combination of control techniques applied in a strategic manner which needs to be ongoing to be effective.

- 1080 baiting
- Trapping
- Shooting
- Warren destruction
- Fumigation
- Removing harbour
- Monitoring and adapting

Working with your neighbours is important to have the greatest impact on the rabbit population.

PHCC has in the past coordinated the release of the RHDV1-K5 rabbit virus. This year due to concerns around population immunity PHCC will not be coordinating the release. We are currently investigating if we may be able to release the virus again in future years in a more targeted manner. To find out more about how to control rabbits on your property visit: <https://pestsmart.org.au/wp-content/uploads/sites/3/2020/09/>

Wandering Fox Shoot 2025

Numbats are safer after the Wandering Fox Hunt with 45 participants culling an impressive 135 foxes, 3 feral cats, 1 feral pig and 10 rabbits at the Wandering Fox Hunt 2025. These activities help to reduce the risk of predation and habitat destruction to threatened species.

PHCC funded the breakfast and were able to thank and provide vouchers to the attendees for the hard work they do protecting local threatened species including numbats, woylies and chuditch.

PHCC is proud to have supported this event through the Numbat Neighbourhood Project since 2020 and in those 6 years 908 foxes, 32 feral cats, 82 rabbits and 14 feral pigs have been culled and are no longer predating or destroying the habitat of threatened species.

We'd like to say a big thank you to the event organisers and participants.

This project is funded by the Australian Government Natural Heritage Trust and delivered by PHCC, a member of the Commonwealth Regional Delivery Partners panel.

Hotham-Williams sub-catchment update

Williams River Bank Rehabilitation

You all know the drill by now...

We've been working hard in specific areas on the Hotham and Williams Rivers. During the first week of March, we completed another section of the Williams River downstream of the town weir next to the Lions Rest Area. If you're passing through and want to have a look, follow the

dirt track heading north west from the car park, and pop down to the river where you will see access points. There are several structures along that stretch, ranging from re-sloping and using primarily rocks to reinforce the banks, and use of logs to enhance habitat and compliment the rock material. There are also a couple

of in-stream structures that aim to help maintain and build up the pools, which are becoming more and more important in the drying climate. The biodegradable jute mat placed on all the re-sloped banks will provide good spots for planting seedlings later in the year.

Here's a bunch of photos to check out the treated banks.

In-Stream Structure

Strategic Re-Sloping

Partnership with Wilman (Dryandra) People Corporation

Soil Health Workshop with Mark Tupman

On Wednesday 19th March we hosted a Soil Health Workshop with Mark Tupman from Productive Ecology at Qunidanning Community Hall as part of our Future Ready Farming Project. This project is run over 4 years with funding from the Natural Heritage Trust under the Climate-Smart Agriculture Program.

We learnt the Fundamentals of Functional Soil Fertility, including the basic characteristics of soils, understanding plant/microbe/soil systems, optimising plant growth to build soil, leveraging plant diversity, the benefits of animals in our paddocks and how taking care of our soil life is crucial to a healthy planet. After a delicious morning tea and lunch from

Boddington Bakehouse we then discussed how building healthy soil systems can be managed by establishing multi species pastures and cover crops, managing grazing to improve pastures, making high quality compost, getting things off to a good start with planting treatments, targeting nutrition to maximized returns.

The workshop concluded by getting our hands dirty by making a compost to use as a seed coating prior to sowing a paddock as well as making up a foliar fertiliser mix. We also tested the sugar levels in orange and apple juice and compared the results to the sugar levels in freshly picked pasture using a Refractometer.

The Future Ready Farming project will see us working with a number of farmers over 4 years on multispecies pastures and cover crop demonstration sites. For this upcoming sowing season we are working with four farmers, two on the Swan Coastal Plain and two within the Hotham-Williams subcatchment. We plan to invite another four farmers each year to join the project. More information can be found at <https://peel-harvey.org.au/wp-content/uploads/2024/12/Future-Ready-Farming.pdf>

This project is supported by the Sustainable Agriculture Position and the Australian Government through funding from the Natural Heritage Trust under the Climate-Smart Agriculture Program.

Newmont

These projects are supported by PHCC through funding from Newmont Boddington, South32 Worsley Alumina and the Shires of Boddington, Cuballing, Wandering and Williams.
