KEY INFORMATION

▲ ▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 15 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying Regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 13 to these financial statements.

SIGNIFICANT ACCOUNTING POLICIES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between

mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

The Shire has no unspent debenture funds as at 30th June 2025, nor is it expected to have unspent funds as at 30th June 2026.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

9.2.1 Council Meeting Schedule 2027

Applicant: Internal report
File Ref. No:
Disclosure of Interest: Nil
Date: 16 October 2026
Author: Chris Paget – Chief Executive Officer

Summary

For Council to consider Council Meeting dates, locations and starting times for 2027.

Background

It is a legislative requirement for Council to advertise at least once per year the dates, times and location of its Ordinary Council Meetings through local public notice.

Should it be necessary to change the date, time or location of any meeting the change must also be advertised.

Comment

This current meeting schedule has Council's Ordinary Meetings held every month with the exception of January (Council in recess). Since 2018 Council has held its meetings on the third Wednesday of each month, and it is recommended this practice continue with the venue being the CWA Hall in Cuballing commencing at 3.00pm.

Catering arrangements will remain the same as in 2026, with a light afternoon tea available on arrival and dinner held at the Cuballing Tavern following the Council Forum information session.

The 2027 meeting schedule does not include dates for:

- Annual General Meeting of Electors - this meeting date is dependent on the timing of our receipt of the final OAG audit report and its subsequent adoption by Council;
- Any Special Council Meetings that may be required during the year;
- Workshops, or subject specific forums on an ad hoc basis during the year (these are strictly non-decision-making forums)
- Occasions where Councillors informally gather for Elected Member professional development or to inspect, review or workshop specific individual matters.

Dates for the Cemeteries Advisory Committee have been scheduled for the months of April and October, and these will be also included in the public advertisement.

The proposed 2027 Ordinary Council Meeting schedule is as follows:

Wednesday, 17 February 2027

Wednesday, 17 March 2027

Wednesday, 21 April 2027

Wednesday, 19 May 2027

Wednesday, 16 June 2027

Wednesday, 21 July 2027

Wednesday, 18 August 2027

Wednesday, 15 September 2027

Wednesday, 20 October 2027

Wednesday, 17 November 2027

Wednesday, 15 December 2027

Meetings of the Cemeteries Advisory Committee will be held in the Shire of Cuballing Administration Office as follows:

2.00 pm, Tuesday 20 April 2027

2.00 pm, Tuesday 19 October 2027

Summary

The purpose of this report is for Council to consider the closure of the Shire Administration Office and Works Depot for the 2026/2027 Christmas and New Year period. An early decision will inform the community well in advance of the office closure and thus allow residents to make appropriate arrangements to meet their needs.

Background/Comment

Council Policy 1.6 states that *"Council will not provide services from the Shire Administration Centre from the period commencing on Christmas Day each year until and including the New Year's Day public holiday. In addition, should there be only 1 day following the New Year's Day Public Holiday to a weekend, Council will extend the closure to include that day."*

Both Christmas Day and New Year's Day fall on a Friday in December 2026 and January 2027. Council approval is sought to set the annual closure period from midday 24th December 2026 and reopening on Monday 4th January 2027.

From consulting with our staff, past history has shown that during this period the Administration Centre experiences very little contact from the public and the number of enquiries and transactions during this period have been extremely low. The closure of the office will allow staff to have a slightly extended period of leave (including the designated public holidays). The Works Depot crew also normally take their leave during this period, and as always there will be staff available on call to attend to any operational matters or significant emergencies that may arise. The proposed closure for this year is once again expected to have no negative effect on the operations of the Shire nor cause any inconvenience to the public.

A majority of our staff members will be applying (or have already applied) for leave on these days. In line with Council policy, all staff taking time off during the period will need to utilise either annual leave or rostered days off; these additional days also allow us to reduce some of the accrued staff leave liability we have on our books.

As with the previous years, the closure period will be advertised on the front counter, public notice boards, Shire website/Facebook pages and in the Cuby News in order to give customers the opportunity to complete business or licensing prior to the Christmas break. The advertising will also include the on-call emergency contact numbers.
